Creative Cloud Tutorials

- Creative Cloud Tutorials provides 1000+ free online tutorials on Adobe Creative Cloud apps
- Learn how to use Photoshop, Illustrator, After Effects, Lightroom, new Mobile apps and more.
- Topics are for both beginners and experienced users including Getting Started, Essentials and New Features content.

Step 1 of 7:

Create guides from a shape or object

Open the downloaded file in Photoshop. In the Layers panel, select the "Step 1" layer. If you don't see the Layers panel, go to Window > Layers.

Select View > New Guides From Shape, which creates guides in your document based on the dimensions of the object in the selected layer.
